

A+A 2015

Hall 3, Stand B82

NEWSFLASH

Ardoie, 19-10-2015 - At the next A+A trade fair in Düsseldorf, Sioen Apparel will present a wide range of new products that can be used in all kinds of applications for professional protective clothing, including:

New

New high-visibility collections that comply with EN20471.

Extensive new collection of high-visibility T-shirts and polo shirts: Basic Line, Ultra Line and Sio-Cool (light, comfort, classic).

New modular concept in the field of high-visibility clothing incorporating rain and cold protection.

Siopor Strong: Heavy duty high-visibility rainwear.

EN 342 winter rainwear with protective high-visibility function.

SIOPOR[®]
EXCELL

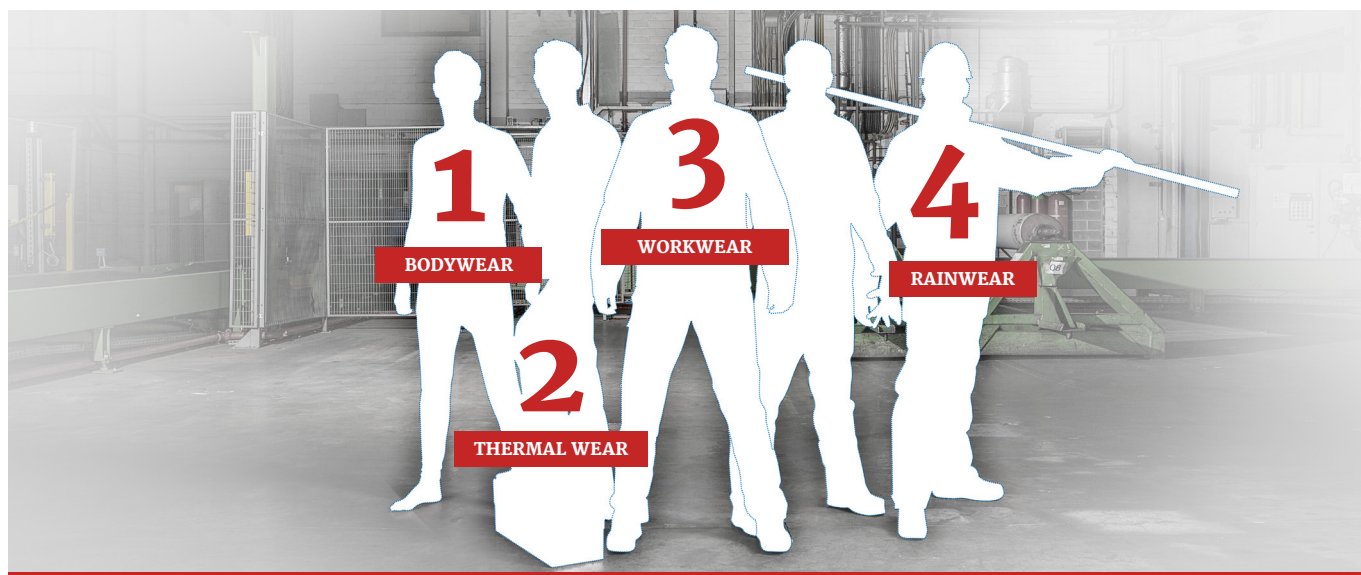

Siopor Excell multi-norm collection:

As part of the changes the EN ISO 11611 and EN ISO 11612 standards, Sioen has fabric developed a revolutionary collection in terms of comfort, features and weight, incorporating the new high-visibility standard EN ISO 20471. In addition to rain jackets and rain trousers, the Siopor Excell collection now also includes high-visibility jackets, body warmers and rain jackets. Siopor Excell is robustly woven with 3 layers, providing protection and conforming to numerous standards. The weight of the fabric is only 270 g/m², which makes for a light and comfortable garment. Due to a permanent water repellent treatment, Siopor Excell also resists water and chemical products optimally.

SIOEN

NEWSFLASH

Expansion of the Sioen multi-norm workwear collection:

The extensive range of Sioen multi-norm rainwear was complemented by a wide range of products of multi-norm workwear. Several quality fabrics were developed that could be used under extreme working conditions and the most diverse areas of application. All products meet the latest requirements of safety at work (flame-retardant, arc protection, antistatic, splash protection, welding protection, etc.) and combine the highest safety

standards of conformity with exceptional comfort and excellent washing qualities. This new range is now also extended to include short and long trousers, bib and brace trousers and coveralls in various fabric combinations.

Visit our stand in Hall 3, B82 and see these and many more new products, as well as other innovative products developed by Sioen.

Sioen Apparel is an innovative manufacturer of professional protective clothing, ensuring top quality products. Sioen is active in all sectors of industry, but gives highest emphasis to safety and comfort. The Sioen range of technical professional protective clothing includes the areas of rainwear, high-visibility clothing, flame-retardant and antistatic workwear, multi-norm rainwear, arc protection clothing, chemical-resistant clothing, fire protective clothing, cut resistant clothing, floatation suits, ballistic body armor, and much more.
